

Security Certificate

SEP guarantees for SEP sesam that:

- it has no built-in backdoors
- no SEP sesam data will be sent without the customer's consent
- no data will be sent outside the EU
- support logfiles remain in Germany/EU (exception SEP customers in Americas)
- all key/code holders are located in the EU
- SEP sesam runs on Linux (recognized, more secure operating system)

Georg Moosreiner
CEO, SEP AG
